

**PERFECT PRODUCTS BY
PERFECT MACHINES**

High Performance Machinery for the Production of
Paper Tubes | DTY & POY Take-up | Paper Cores | Composite Cans | Fibre Drum

TRADER & MANUFACTURER

Manufacturer of Paper Napkin Machines, Tissue Converting Machines, V-Fold Facial Tissue Machines, N-Fold Hand Towel Machines, Toilet Roll Machines, Aluminium Foil Rewinding Machines, Paper Napkin Packing Machines, Paper Core Slicer (Log saw) & Allied Equipments.

Importer & Exporter of used Offset Printing Machinery & Graphic Equipments.

Company profile

As a top-brand of tissue converting machines, we provide our customers with many types of tissue converting machine for sale at a competitive price. For over 6 years manufacturing & exporting experience, we had supply our many machines to many big brand in tissue paper business all over the world. We always supply our customers the tissue machines from the common grade to high grade, to meet different customers demands. Our main products are **Paper Napkin Machines, Toilet Roll Making Machines, Aluminium Foil Rewinding Machines, Paper Napkin Packing Machines, Paper Core Slicers (Log saw), V-Fold Facial Tissue Machines, N-Fold Hand Towel Machines & Allied Equipments.**

The foundation of above content is based on our four decades long business of importing of high quality of used offset printing machinery and graphics equipments. After rebuilt we supply them to across India and also export to other countries.

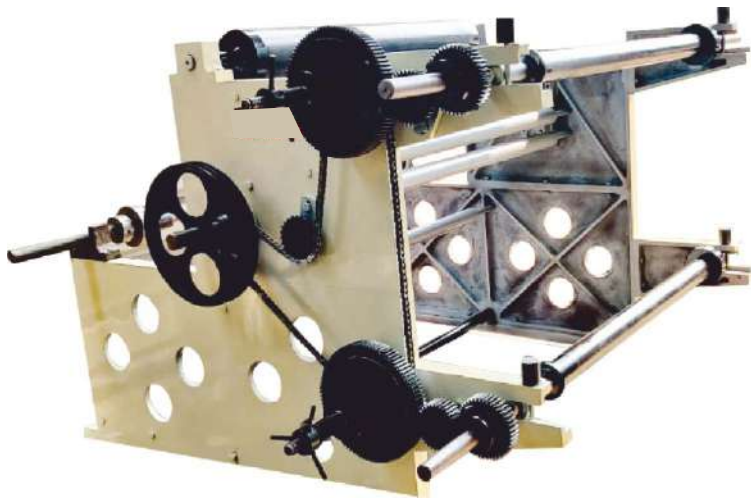

We are third generation in printing industry our grandfather was in printing industry in British ruling time in India & our respected father late Mr. Mohd Salhin was in business of used offset graphic equipments from last four decades. Now we are continuing the same with manufacturing of paper converting machinery. Our passion began with refurbishing, rebuilding and delivering used graphic equipment to printers and dealers around the world this global experience has taught us invaluable lessons in our way of doing business. We understand the technical capabilities, quality standards, and cost advantages required by printers and dealers there by enabling them to trust the quality of printing and graphics equipments supplied by us.

Upholding the principle of "**Customer-Orientation**", we continues making great efforts to meet the all demands and requirements of our clients, by supplying them the most advanced machinery and after-sales service.

Paper Tube Winding Machine Wholesalers
Dealers of Can Making Machine
Exporter of Winding Machinery
Winding Machine Distributors
Winding Machine Traders

Paper Slitter and Rewinder

Features

1. Casting Body
2. Double Shaft rewinding system.
3. Two Clutch for tension adjustment

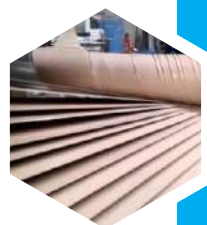

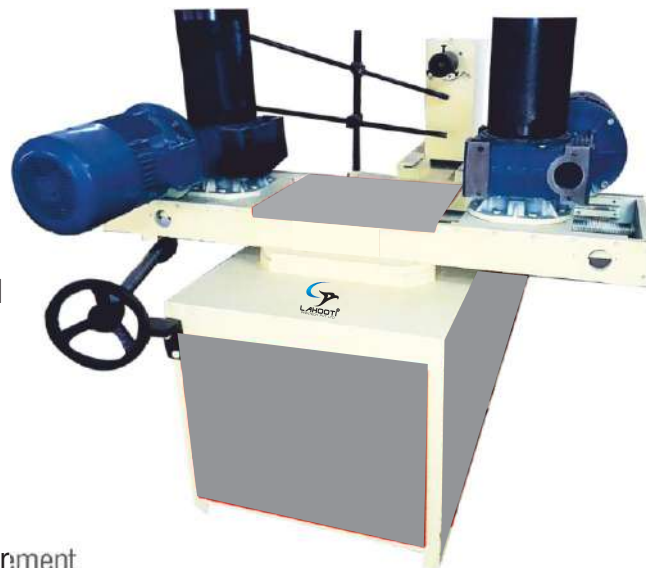

Working Specification	LEW-200
Main drive motor	5 HP DC drive
Working width	40"
Minimum ply	2
Paper Weight	70 GSM to 500GSM
Max. Dia of Jumbo Roll	40"

Spiral Paper Tube Winder

Features

1. Technology LEW 201 (A) H,M, is designed to work for the mass production to spiral paper tubes, packing industries
2. Built-in Control panels and remote controlled station
3. Fully spiral Bevel Gear drive for give more strength in drive load.
4. Easy to mandrels interchangeable as requirement.

Working Specification	201 H	201M	201S
Applicable Layers	32	22	12
Applicable I.D of paper tube	25-200mm	20-100mm	12-60mm
Applicable wall thickness	1-15mm	1-9mm	1-3mm
Production Speed	1-25 ft/min	1-20 ft/min	1-15 ft/min
Main Drive Motor	15Hp DC Drive	7.5HP DC drive	5HP DC drive

Reel Stand

Features

- 1 Cascade type glue spraying system
2. Brakes for adjustment of paper tension
3. Knives for adjustment of scrapping glue as per requirement

Working Specification	LEW-200
Main drive motor	5 HP DC drive

Auto Rough Cutter

Features

1. Automatic on line cut off
2. Cutting length depth and axis all easily adjustably.
3. Carbide Tipped cut off saw for thin wall core.
4. Pneumatically operate.

Working Specification	201H	201S	201 S
Main driving motor	2 HP AC	1 HP AC	5 HP AC
Applicable wall thickness	1-15 mm	1-9 mm	1-3 mm

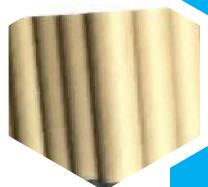

Tube Re Cutting Machine

Features

1. Paper Tube Recutter is operated pneumatically
2. Score knife Cutting give a perfect and neat cut edge of desired short tube.
3. Paper tube recutter is provided for further cutting of long paper tube.

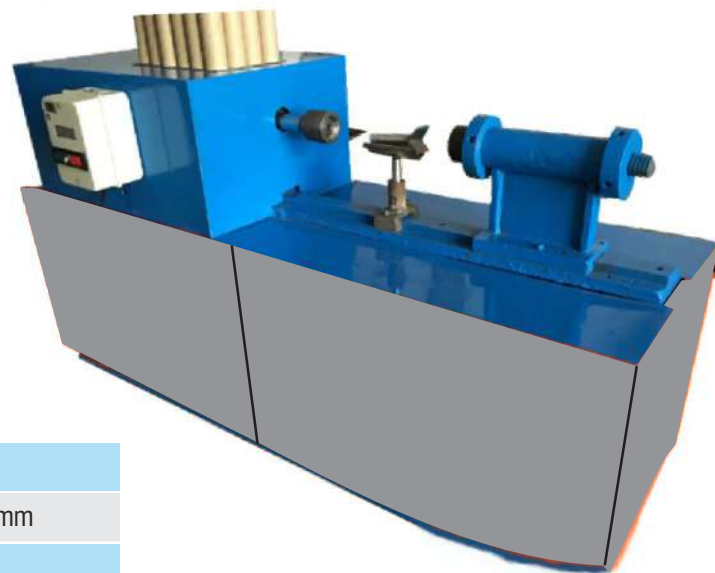

Working Specification	202H	202M	202S
Applicable I.D of tube	25-200mm	25-150mm	12-60mm
Applicable wall thickness	1-15	1-9mm	1-3mm
Applicable parent tube length	1000mm	600mm	400mm
Minimum cut price length	60mm	50mm	40mm
Main drive motor	2 HP	2 HP	1 HP
Score Cutting Knives	6 Pcs	6 Pcs	4 pcs

Head Nosing Polishing Machine

Features

1. Machine does accurate nosing & bottom polishing operation
2. Smooth and simple operation
3. Easy in charge Die & Tools

Working Specification	203
Applicable of tube	30-100mm
Applicable wall thickness	1-3mm
Applicable paper tube length	100-310mm
Expected production speed	25-30 pcs / min
Polishing & Binding Motor	2HP AC
Reduction gear box	3"

Labeling Machine

Features

1. Labeling machine applies preprinted labels with precise legislation to long, spiral winder tubes.
2. Pressure foller is pneumatically to ensure uniform labeling
3. Semi Automatic & Simple to operate

Working Specification	LEW 204
Applicable I.D of tube	5.0150 mm
Applicable Paper tube length	50-600 mm
Applicable parent tube length	0.5 HP AC
Mandrel Drive Motor	0.5 HP AC
Reduction gear box	1½

Glue Tank

Features

- 1 Cascade type glue spraying system
2. Brakes for adjustment of paper tension
3. Knives for adjustment of scrapping glue as per requirement

Working Specification	201 H	201 M	201 S
Applicable paper Layers	32	22	12
Pump Drive Motor	3 HP AC	2 HP AC	1 HP AC

Glue Mixture

Certificate

**Capacity:
250 ltr. to 300 ltr.**

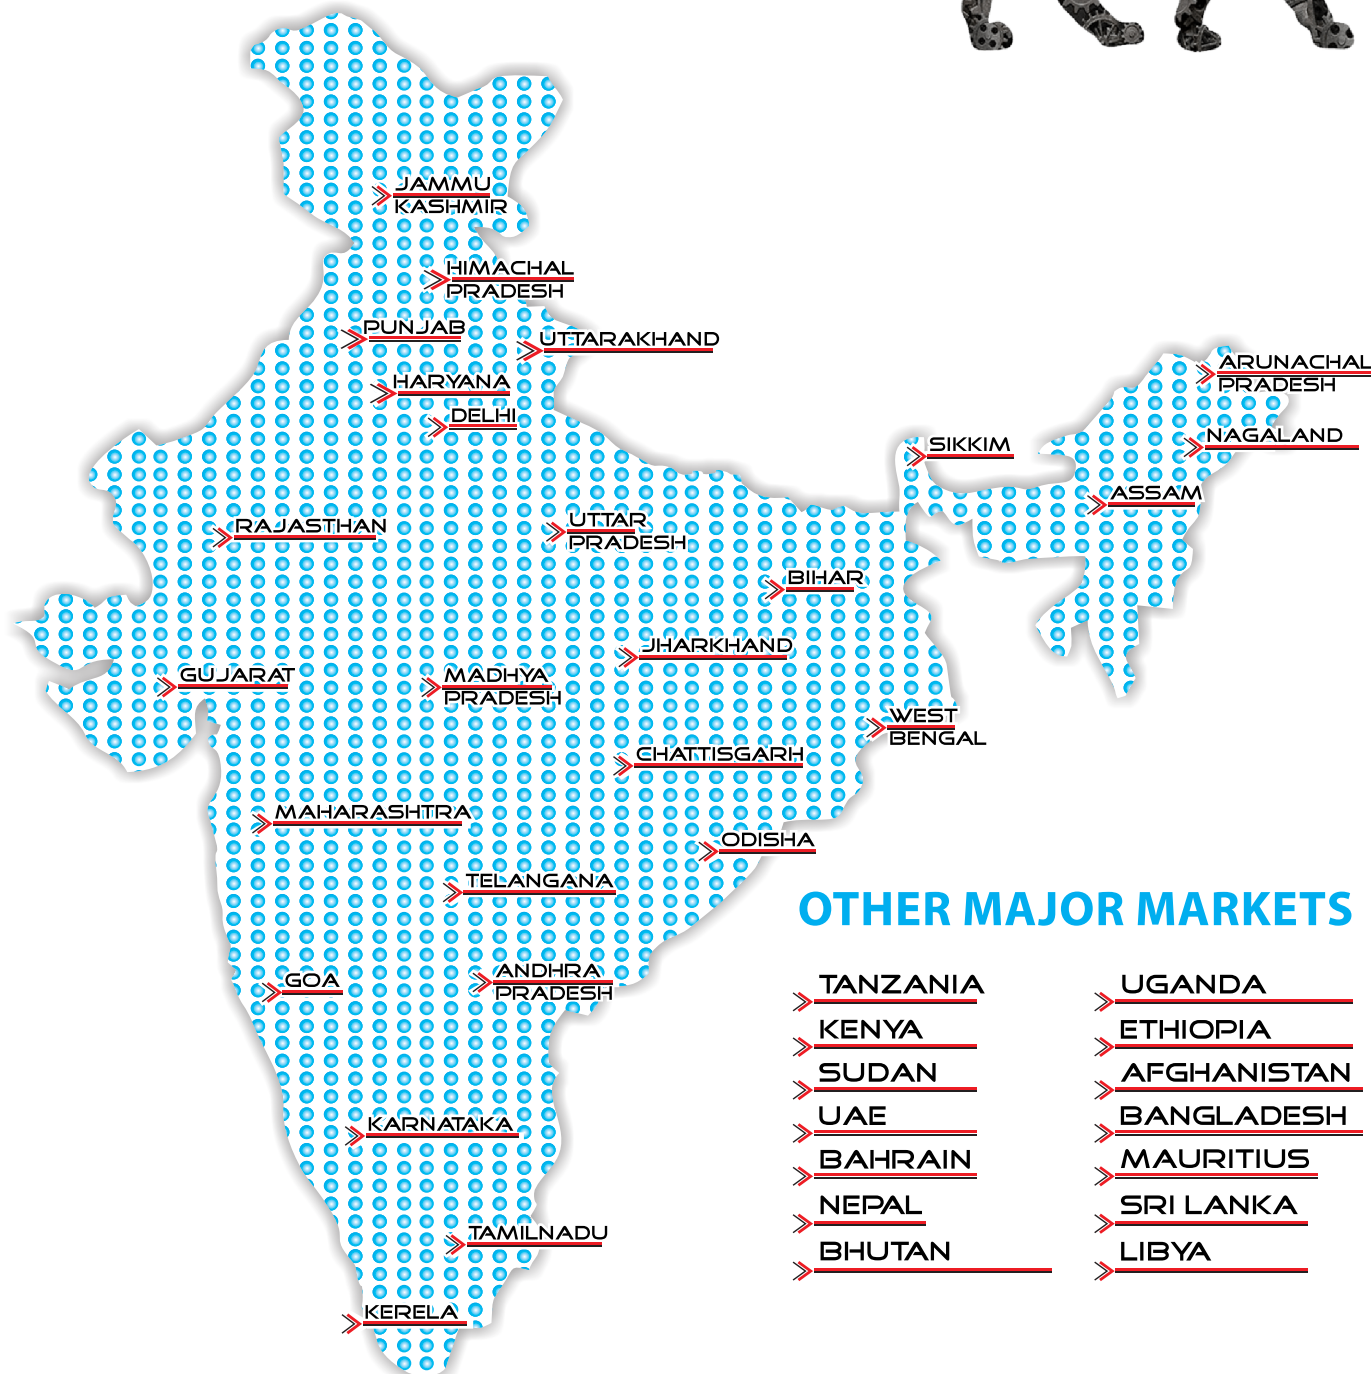

Products

**Paper Tubes, DTY & POY Take-up, Paper Cores,
Composite Cans, Fibre Drum**

STATES WHERE WE SUCCESSFULLY DELIVERED OUR MACHINES
